

GPS Tracking Solutions for Municipalities

Management Issues:

- Community service
- Excessive overtime
- Fleet tracking
- High fuel costs
- Inefficient routing
- Insurance risks
- Liability protection
- Unauthorized vehicle use
- Poor vehicle maintenance

Tracking Systems provides:

- Asset Management & Tracking
- Equipment Tracking
- Improved accountability
- Improved documentation
- Time card verification
- Competitive advantage for funding
- Driver/passenger protection
- Improved routing
- Improved vehicle maintenance
- Trailer Tracking
- "True" leasing

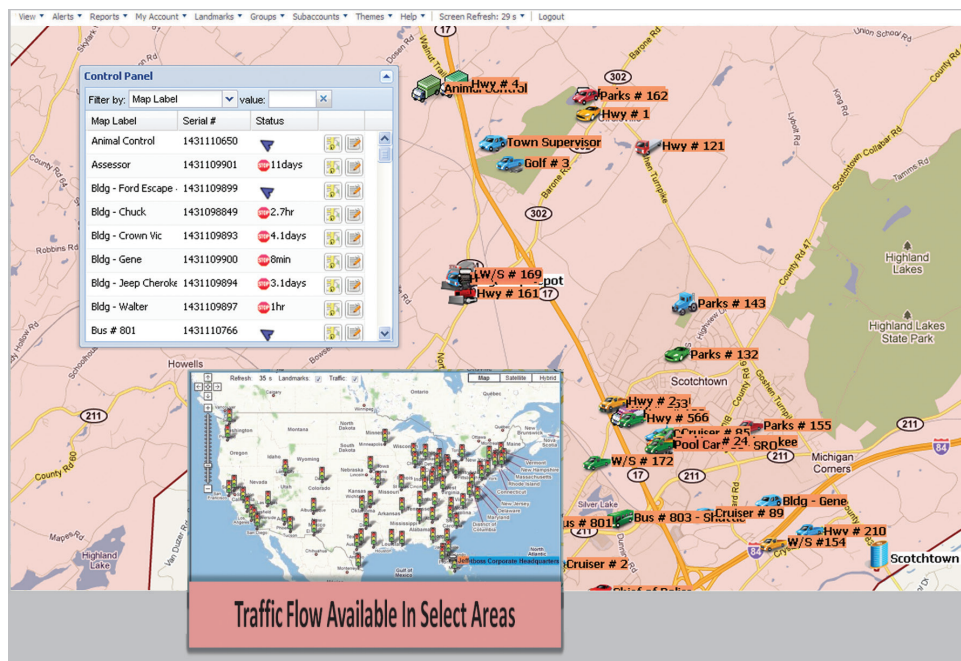

Municipalities have the same issues as the private sector. What makes these issues more difficult is that counties, cities, towns and villages are funded with public dollars. Today, most municipalities are forced to work with reduced state and federal funding while having to maintain the same high levels of service their constituents have come to expect.

Tracking Systems is your answer to these challenges. Our full range of fleet services — including detailed mapping and reporting capabilities — has helped municipalities save thousands of dollars in maintenance costs while providing substantial fuel savings, identifying and eliminating wasted man hours and reducing insurance costs.

Why Tracking Systems?

- Flexible
- Customizable
- Easy to use
- No software purchase necessary
- Web-based and hosted
- Multiple hardware configuration
- Fleets separated by department
- Highly secure data center
- Local customer support
- Woman-owned enterprise

Tracking Systems... keeping watch over what matters most.

Features

- Services are available from any Internet connection
- Multiple workstations can be connected simultaneously
- Administrator has control over all access parameters and can identify each user with separate login and password
- Information to and from the server is encrypted and secure
- Vehicle route replay for up to 6 months
- Monitors oil changes, registration and maintenance schedules
- Hardware sensors for doors, seats, plows, sanders, sirens, emergency lights, gunlocks, drug cabinets and more

- Alerts from sensor triggers can be transmitted via cell phone and email, and are displayed on dispatch screen for immediate response
- All reports can be saved in Microsoft® Excel for historical comparisons in PDF format or printed

Benefits

- Increased employee efficiency
- Improved emergency response times
- Reduced maintenance costs
- Reduced fuel costs
- Reduced overtime costs
- Potential liability reduction
- Added safety and security
- Enhanced employee accountability
- Reduced paperwork
- Peace of mind
