

Trailer Management

IntelliScan™ Cargo Sensing

Loaded/Unloaded Reporting
with 99% Accuracy

Get real-time visibility into every trailer's location and load status with Spireon's IntelliScan cargo sensing technology. Verify load status before dispatching drivers. Prove detention with timestamped images.

Settle damage claims with visual evidence. Optical imaging and machine learning instantly detect which trailers are loaded or unloaded with an industry-leading 99% accuracy, saving hours of wasted driver time, and improving utilization and increasing trailer turns.

Benefits

KEEP DRIVERS DRIVING

With accurate loaded / unloaded status reporting, you can ensure a trailer is empty before scheduling a pickup.

IMPROVE WORKER SAFETY

Minimize cargo damage by detecting a cargo load shift before trailer doors open, keeping your team safe and reducing your liability. Detect improper loading protecting your team and providing valuable insight for improved loading practices.

RESOLVE CLAIMS AND RECOVER STOLEN CARGO

Receive timestamped images from inside the trailer that can prove or disprove cargo/trailer damage and provide proof of stolen cargo aiding in prosecution.

INCREASE DETENTION BILLING ACCURACY

Improve shipper practices with proof of load/unload.

SENSOR TECHNOLOGY WITH 99% ACCURACY

Get the industry's only time-of-flight laser and optical cargo sensor. Other cargo sensor solutions on the market utilize infrared sensors or ultrasonic technology, which are prone to inaccuracies caused by temperature and humidity.

See how Spireon can help you unleash your trailers' full potential at spireon.com/trailer-management.

IntelliScan™

Features

- 99% accuracy in cargo detection
- Time-of-flight laser sensor and optical sensor
- Time-stamped images
- Machine learning technology / Artificial Intelligence (AI)
- Detects any load material type
- Automatic event image capture
- Ability to retrieve historical images for up to 45 days
- OTA updates

Why Spireon

Our top-of-the-line products are backed by award-winning customer service. We are only satisfied when our products empower our customers to succeed.
